QUOTE

“A year from now, you will wish you started now” – Karen Lamb

When you’re struggling to learn how to motivate yourself to study, the key thing is to **think about your long-term goal**. Some students even find a way to have their goal in front of them; whether it’s on a post-it note, the front page of your notebook, or even the screensaver on your laptop or phone!

FUTURE CAREERS

Children are our future, is teaching them yours?

**Now be based anywhere in New Zealand

Learn, teach and earn!

ECNZ's centre-based degree allows you to study and work at the same time. What you learn in class or in online discussion one day, you can apply the very next day in your ECE working environment.
