

Elim Christian College

Careers Newsletter

26th March 2019

INTRODUCTIONS

Welcome to the first Careers Newsletter for 2019!
You can expect updates, opportunities, and information relating to various career paths and programmes that may of interest to you.

MRS NARAYAN

As Head of Department for Careers, Mrs Narayan is a wealth of knowledge. She is also a Chemistry teacher with a vast science background and the current Across Schools Lead for Kahui Ako.

She is based at the Botany Campus in the main office block and can be contacted for an appointment through the office or directly at chhaya.narayan@elim.school.nz

MRS MACKENZIE

Mrs Mackenzie has recently joined the college with a communications background assisting Mrs Narayan in the Careers Department, coordinating the Gateway Programme and is the Communications Administrator.

She is based mainly at the Botany Campus but also spends time at the Mt Albert Campus. You can contact her at: sofia.mackenzie@elim.school.nz

WINTER SPORTS COMPANY

Winter Sports Company are currently recruiting interns for the 2019/20 season.

A ski or snowboard internship trains students to be a level 1 instructor and then have a guaranteed job as an instructor for the winter. Applicants do not need previous instructor experience to apply.

Gap Year & Career Options

Winter Sports Company are a gap year provider specialising in developing student's skills and confidence. All courses give students the opportunity to gain valuable qualifications whilst enjoying their year out. For more information about gap year courses and internships please visit our website: www.wintersportscompany.com

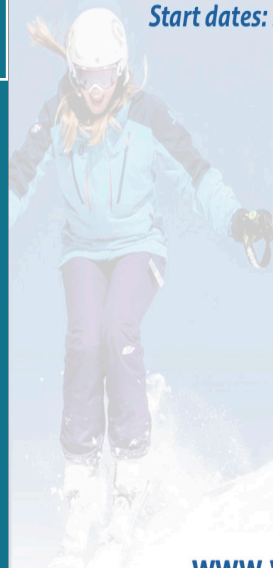

Upon completion of a course or internship, students can spend the remainder of their gap year instructing in resorts around the world including Australia, Canada, New Zealand and Europe.

Become a Ski or Snowboard Pro in your Gap Year

*Ski & Snowboard Instructor Internships
in Canada & New Zealand*

**Full training provided
no previous experience required**

Start dates: June & November 2019

SAE Creative Media Institute

We have introduced several new qualifications and also a new program for high school students to get exposure to industry equipment and professionals.

The qualifications that we now offer are:

Music:

- Bachelor of Music Production
- Diploma in Electronic Music Production

Audio:

- Bachelor of Audio Production
- Diploma in Audio Production

Screen:

- Bachelor of Screen Production
- Diploma in Screen Production

Secondly, if there are any students interested in the industry, but unsure if they want to take the leap just yet, we've introduced our Schools Initiative Programme. Where we host various workshops for high school students, both on and off campus.

This is a great way for students to get a feel for the industry and ask our experts questions.

For more information you can contact either of the Careers team or email SAE directly at: schools@sae.edu

Lattitude Global Volunteering is an international youth development organisation, providing Gap Year and International Volunteering placements for young New Zealanders aged 17-25.

We are about to embark on a series of information nights in Auckland. These are a great opportunity for any of your students, in particular those in year 13, to come along and find out more information about the international travel/work experience opportunities available to them. They are more than welcome to bring their parents/guardians etc.

All our Info Nights nationwide can be viewed here:
<https://lattice.org.nz/useful-info/attend-info-night/>

It is important to note that our Priority Application closing date for 2020 gap year opportunities is:

Monday 29th April 2019

Applying before this date will give applicants priority selection in their country of choice. Many of our destination countries, in particular the UK/Ireland, Canada and Project Asia do reach capacity every year, and applying early will ensure they avoid disappointment. We DO accept late applications after this date, however, positions are subject to availability.

Please do not hesitate to contact us if you have any questions or require additional information. You will also find lots of information, including videos, our latest brochure and application form on our website www.lattice.org.nz.

Tēnā koe,

The practice of design has dramatically evolved in response to emerging technologies and the growing need for industries to respond to a rapidly changing world. Across all business sectors, employers seek designers who can create solutions to complex problems – through creative making, entrepreneurial thinking and consideration of all potential outcomes. There's a wealth of opportunity for skilled designers in business, health, science, art, entertainment, manufacturing and other industries.

In 2020, we introduce a Bachelor of Design with 11 undergraduate conjoint options.

In 2019, we are hosting events for students to experience first-hand how contemporary design can influence across sectors. Likewise, how different fields of study can influence design. All events are at our Auckland City Campus.

Student group workshop, Wednesday 15 May, 10am – 2.30pm

We invite teachers of all disciplines to accompany their interested Year 12 and 13 students and experience what life as a Design student will be like. You and your students will work alongside University staff and students to generate creative solutions to real world problems.

Key workshop activities include:

- working collaboratively in interdisciplinary groups
- processes for identifying innovative, meaningful design opportunities
- concept development exercises
- tools for proto-typing
- critical debate

Teachers please register your student groups by 29 April at: <https://www.forms.auckland.ac.nz/en/public/creative-arts-and-industries/design-programme-student-workshop-form.html>

Open Day, Saturday 31 August, 9am – 3.30pm

This annual event includes short information sessions about all undergraduate programmes available at the University.

Apprentice Opportunity

I am pleased to inform you of an Engineering Machining Apprenticeship that has become available in our business.

I would love this opportunity to go to a local youth, Please share this with any students you think would suit a career in the engineering field.

ONE DAY WE WILL
LOOK BACK ON DAYS LIKE THIS
AND REALIZED THAT THE
LITTLE THINGS
MATTERED ALOT MORE
THAN WE EVER
THOUGHT
THEY WOULD.
