

Tuesday 14th February

Dear parents and caregivers,

I hope that you and your families are well as we navigate challenging weather. Due to the impact of Cyclone Gabrielle, students will be doing distance learning today.

The junior team has compiled an activity board for your children to do at home. They can work through as many of the activities as they would like to. When they return to school, they can share their distance learning with the teacher and classmates.

Access to Activities through doc in google drive or PDF attached.

Please feel free to email classroom teachers if you have any questions.
